

MARTIN BIRKENBAUM

Seattle, WA | martin.birkenbaum@initech.example.com | +12065550192

Senior Software Engineer with 8+ years of experience designing, building, and deploying scalable production data pipelines, microservices, and GitOps-driven automation systems. Passionate about data integrity, schema design, developer toolchains, and operational excellence.

PROFESSIONAL EXPERIENCE

Initech Corporation

Led architecture and development of high-throughput microservices and GitOps-driven infrastructure pipelines.

Senior Software Engineer

2021-03-01 - 2026-07-01

- Designed and implemented Python-based production data pipelines processing 10M+ daily events, ensuring data integrity and scalability
- Standardized containerized deployments utilizing Docker, Kubernetes, and GitOps workflows, enhancing system reliability and operational ownership
- Mentored 6 junior/mid-level engineers, establishing robust testing standards and validation practices
- Developed custom internal toolchains that reduced CI pipeline execution times by 40%, improving data pipeline efficiency and developer velocity

Hooli Inc.

Backend engineer focused on building RESTful APIs, developer tooling, and automated deployment integrations.

Software Engineer

2018-06-01 - 2021-02-01

- Developed robust REST APIs in Python/Django and TypeScript/Node.js, facilitating data ingestion and integration points
- Integrated third-party APIs and automated webhook processors, establishing key data integration pathways
- Implemented a suite of unit and integration tests raising coverage from 60% to 92%, embodying validation-first habits for critical systems

CORE TECHNOLOGIES & ARCHITECTURES

Languages	Python, SQL, TypeScript, JavaScript, HTML/CSS
Technologies & Frameworks	Docker, Kubernetes, Git, GitOps, PostgreSQL, Data Pipelines (ETL/ELT), Schema Design, pytest, Jinja2, WeasyPrint

EDUCATION

Bachelor of Science, Computer Science, University of Washington
